

[Visual Studio For Mac Web Development](#)

The screenshot shows the 'Add Packages' dialog box in Visual Studio for Mac. The title bar reads 'Add Packages'. At the top left, there is a dropdown menu showing 'nuget.org'. A search bar is located at the top right. The main area is a list of packages, each with a checkbox, an icon, the package name, a description, and the number of downloads. The 'Json.NET' package is selected and highlighted in blue. To the right of the list is a detailed view of the selected package, showing its version (6.0.3), author (James Newton-King), published date (27/04/2014), and other metadata. At the bottom, there is a checkbox for 'Show pre-release packages' and two buttons: 'Close' and 'Add Package'.
